ALANKARAM

Sleek & Stylish

The intent here is to stay away from bulky, space consuming furniture. Choose pieces that don't block your view from one area to another. Try open-sided bookcases, glass or acrylic tables, and chairs with slender profiles, which will fill your room with comfort and utility without making it seem congested. ▶

The Indomitable Spirit

One of our favourite Indian carpet labels, Jaipur Rugs launches Freedom Manchaha, a limited edition range of carpets with the aim of 'weaving redemption one knot at a time'. Each rug is hand made by one of the 100 inmates across Jaipur Central Jail, Bikaner Central Jail and Dausa Central Jail. It is an ode to these inmates who want to express themselves creatively and still support their families through the odds. If you wish to experience this collection head over to www.jaipur rugs.com.

Ceramic Magic

Meenakshi Varma, the founder of Oriri Studio just completed this stunning ceramic mural that features a fantastical tropical garden with over 480 handmade and painted pieces. We love it so!

SPECIAL FEATURE

1. EARTH TONES

Brown is such a wonderful colour and we love how it makes us feel grounded and centered. This summer is all about creating a cocoon at home for everyone included, so bring in tones of brown and introduce highlights of brass and other reflective materials, for a elegant look. This look by Alsorg got us thinking.

2. PALM CHARM

Bring nature home with indoor plants that cope better without direct sunlight while bringing more vitality home. Having said that do rotate your plants from sunny patches to indoor locations, and don't forget about watering them. Feed them water as you would drink it yourself, not too much, not too little, just enough.

3. DESERT CALM

As odd as this sounds recreate the majestics of the desert at home this summer. There is such a startling gradient to endless sand dunes and we wanted to bring that mystic home. Arpita Bhandari a leading designer crafts a setting with a three-legged bench and sandy colours, and it's inspired us to think of this at home.

4. A COOL DRINK

Summer coolers are delicious, refreshing and every household has its unique recipe for deliciousness. Now, we just need the perfect glass that will do this awesomeness justice. The Nafees lassi glasses, made from brass, and part of the Kalai series at AKFD Studio takes after the colours of the summer sun and moon. We love!

FLORAL SYMPHONY

La Fleur is all set to revolutionise the way we buy flowers. With the help of UK based floral designer Jo Moody, the brand brings to Indian markets the magic of locally-sourced, professionally crafted bouquets! Time to say it with flowers.

Little Details

Sometimes, it's the smallest touches that make all the difference. For instance, these cute ceramic fishes from Decor Kart make for an eclectic wall display!

Going Retro

With its '70s inspired designs, Hermosa Design Studio takes us on a nostalgic trip. Bring home a touch of vintage with these classic furniture pieces that take their cue from the days of yore.

Alankaram sure knows how to combine style, functionality and technology. The Mysig sofa is crafted out of the finest teakwood, is versatile and comes equipped with a built in socket for wireless charging.
